Lolly & Pop, two unique characters invite us to celebrate the small moments of their daily lives. Vinyls, glasses, bottles and corks will be essential to take the audience on a journey through magic, physical comedy, 50's music and the most absurd feats. Surprising us with a high-risk finale, which will make the... "Vintash" A great tribute to human idiocy.

VINTASH! DUO LOLLYPOP

THE PROJECT

Duo LollyPop was born in Barcelona, at the end of 2022, with the aim of bringing new nuances to comedy. By investigating different forms of clowning, they achieve a language of their own. This is how Ale Risorio clown, teacher and artistic director of Espai Piluso (performing arts school) with a wide international experience, together with Paula Hening, psychologist, improviser and clown, begin to train together. The first steps as a duo were taken as presenters of cabarets in different festivals and venues in Barcelona. Their complicity on stage increases and they decide to start writing the first scenes of what will become 'Vintash! an absurd comedy show set in the 50's and 60's.
